

# UNIVERSITY/COLLEGE Bridge Program EAP

## Program Overview:

UMC College/University Bridge program is your first step in pursuing higher education in Canada.

Our pathway program is designed to give international students the required skills and strategies necessary for academic success in North America. It is a fast-paced intensive academic environment that will help you develop and apply these skills in a mock college classroom setting.

After completing UMC's EAP you will be absolutely ready to succeed in Canada!

## Program length:

12 weeks (3 semesters).

Program length may vary depending on the student's placement and academic success within the program.

"I decided to go to UMC because I needed a pathway certificate to go to the university I wanted. While I was studying there, our EAP counselor helped me prepare my documents and apply, she gave me a lot of important information and advice. We also visited my university together and spoke to professors."

Our teachers were always around and available to help. Although EAP was not easy, I completed it successfully thanks to my in-class effort, teachers' attention and staff's support.

"The program was really helpful. When I first came to Canada I did not know anything about it, but now I know a lot about Canadian life-style, history, economy as well as about world issues."

Now I'm ready for university and I got accepted to one of the best ones in Canada without IELTS. Thanks to UMC for this amazing time of my life!

"Before coming to UMC, I thought that I didn't need EAP course. But after this program and all the knowledge that I got here, I realized that taking this course improved my English skills and my grammar immensely! It also helped me learn how to write essays and reports."

EAP opened the door to Canadian college for me! Thank you UMC!
